PERSONAL STATEMENT

I am an Irish born, New Zealand raised lover of all things film and tech. Working in the creative fields of design and film have been a dream of mine since I first saw Toy Story. Ever since I have surrounded myself in all forms of new and exciting technology opportunities and hope to continue doing so. I believe that great things are the result of a million little things done just right. I am also a somewhat rambunctious set of 3 penguins standing atop one another hiding in the clothes of a responsible adult.
